**RELEASE OF ALL CLAIMS**

I, [REDACTED] in consideration of the terms set forth below, hereby release and discharge Defendants City of Pawtucket and Darren Rose from all claims asserted in the United States District Court for the District of Rhode Island matter entitled [REDACTED] **v. Darren Rose and City of Pawtucket**, 1:20-cv-00243-MRD-PAS:

1. Defendant City of Pawtucket shall pay five thousand dollars and zero cents (\$5,000.00) to Plaintiff.
2. This Settlement is in recognition of the work done by Defendants to create an opportunity for an internship for Plaintiff.
3. Mindful of the requirements of R.I. Gen. Laws § 14-1-64(a), this Settlement is also in recognition of the intent of Defendant City's School Department (PSD) to make a reasonable effort, consistent with applicable law to adapt its central management system, currently "Skyward," to include reference to the unique numeric identifier of the corresponding PSD incident report (if any). This would require amending the PSD incident report form to include a unique numeric identifiable designation. Due to the ongoing efforts in upgrading Skyward, determining the ability to implement this adaptation remains an ongoing process by PSD. The parties agree that, once the adaptation is implemented (or the School Department has determined that it cannot be implemented), counsel for Plaintiff shall be advised by email. To the extent that no such advisory has been received

within twelve months of the date of this agreement, counsel for Plaintiff may inquire regarding status by email addressed to counsel of record for the School Department in this case and a response will be provided. Nothing in this agreement shall alter the confidentiality of PSD's record-keeping.

4. In consideration of the above, this case shall be dismissed with prejudice upon receipt of the payment described in paragraph number one (1) of this document, each party to bear her, his or its own fees and costs, and Plaintiff's claims against Defendants and each of them shall be released.

WITNESS my hand this 13<sup>th</sup> day of May 2026.
