prove lawful presence.		

What questions does your jurisdiction have as a result of the passing of the Real ID Act?

What funding will be available to states to help implement the Real ID Act?

Does the Federal Government plan to provide immigration personnel at the DMV license issuing sites?

If your jurisdiction has done an impact analysis please provide us with a copy of the analysis.

The RI DMV is in the process of forming a committee to examine the impact of the Real ID Act. A major concern of the RI DMV is the inability of our circa 1979 COBOL based data processing system to handle communications and change requirements for this Act. Simple changes to our computer system require months of programming and are very costly. Estimated cost to update this antiquated system is a minimum of \$20 million. Another major concern is the impact Real ID Act will have on current personnel. The already over worked DMV clerks will have the additional burden of the requirements of the Real ID Act.
